BUHAWIE SANTOS

IT Fresh Graduate

0920-659-3838 | santosbuhawie28@gmail.com | github.com/BuwieSit | Rizal, Philippines

SUMMARY

Graduating Diploma in Information Technology student with hands-on web development experience gained through internships, academic projects, and collaborative software projects. Skilled in transforming UI/UX designs and user stories into responsive, functional web applications using modern frontend technologies. Experienced in Agile/Scrum development, component-based development, and collaborating with teams to deliver project requirements. Adaptable, detail-oriented, and eager to contribute to web development while continuing to expand full-stack technical skills.

SKILLS

Core Technologies and Tools:

- **Frontend:** React, Nextjs, TailwindCSS, Sass/SCSS
- **Backend and Database:** Python, Supabase, SQL
- **API and Development:** RestAPIs, Axios, Postman
- **CMS:** Wordpress, Elementor
- **Version Control:** Git, Github, Gitlab
- Figma, Adobe XD, Adobe Illustrator
- ClickUp, Lucidchart, Miro
- Microsoft Word, Excel, PowerPoint
- OpenAI Codex, AWS Kiro, and Google Antigravity

Technical Knowledge:

- Software Requirements Specification
- System Analysis & Documentation
- Agile/Scrum, Sprint-based development

EXPERIENCE

Web Developer Intern, Zynappse Corporation **Feb 2026 - Apr 2026**

- Migrated existing React websites to Next.js, refactored reusable components, and implemented server-side rendering while developing responsive interfaces with Sass (SCSS).
- Contributed to a Flutter-based store clock application, performing API endpoint testing with Postman and managing GitLab repositories, including resolving merge conflicts and coordinating code integration.
- Created website prototypes and custom visual assets using Adobe XD and Adobe Illustrator, translating interface concepts into functional web experiences.

Web Developer Intern, ExaWeb Corporation **July 2025 - Aug 2025**

- Developed and recreated client webpages using WordPress and Elementor, configuring Advanced Custom Fields (ACF) and Secure Custom Fields (SCF) for structured content management.
- Managed website content and implemented SEO improvements through metadata and keyword optimization, while analyzing performance using PageSpeed Insights and Lighthouse.
- Refactored webpages based on performance insights and participated in Agile standups and cross-functional meetings to coordinate development priorities and project timelines.

WEBSITE PROJECTS

OASIS - OJT Administration, Support, and Information System

Capstone Thesis | React, Tailwind CSS, Python, Axios, TanStack Query, PostgreSQL, Vercel

Developed a centralized OJT administration web application for PUP ITech, translating system requirements and business processes into functional workflows and interfaces. Contributed to frontend development and API integration while producing SRS documentation, DFDs, ERDs, use-case, sequence, and architecture diagrams using Agile/Scrum practices.

TahaK — Wellness Tourism Booking Platform

Web Application | React, Supabase, Tailwind CSS, Vercel

Developed a single-page wellness tourism platform for a tourism venture in Dolores, Quezon, supporting tourist-facing experiences and administrative management. Collaborated with a multidisciplinary team of tourism and biology graduates to continuously develop and refine the platform from its original ecotourism business proposal for competition participation.

EDUCATION

Polytechnic University of the Philippines (PUP Sta. Mesa)
Diploma in Information Technology - 2026 | GWA: 1.34

Systems Technology Institute (STI College Ortigas-Cainta)
Mobile App and Web Development Strand (MAWD) - 2023

CERTIFICATIONS

- **TESDA National Certificate II —** Computer Systems Servicing
- **TESDA National Certificate III —** Visual Graphics Design
